

The Role of the Intellectuals in Recent Argentina: An Approach to the Experience of "Carta Abierta"

Adrián Pulleiro¹

Abstract:

We propose to analyze the production and practices of argentine intellectual group "Carta Abierta". We ask about model of intellectual than they prefigure, by cultural traditions that they updated and how they are inserted into the open political process in the Argentina, from the conflict between agricultural employer organizations and the Government, during the first presidency of Cristina Fernandez de Kirchner.

Key words: Patheron of intellectual, Cultural traditions, Commitment, Public intervention.
