

***Military Forces in Communitary Food Services of the Program  
SINHAMBRE. The case of the Guerrero Mountain***

Bruno Lutz<sup>1</sup>  
Fredyd Torres Oregón<sup>2</sup>

***Abstract:***

*The involvement of the military in the communitary food service of the SINHAMBRE program highlights the degree of institutional violence that prevails in contemporary Mexico. Detailed examination of the creation of this program improve in the area of Guerrero shows how a natural disaster situation was employed by the Army and Navy Forces to consolidate a state of emergency and interfere in poor rural communities.*

***Keywords:*** Social Policy, Mental Health and Health Services, Complexity.
