

***The concept of “habitus” and the professional work of women from a
Pierre Bourdieu´s perspective***

Abigaíl Huerta Rosas *

Abstract:

This article is about the relationship between the work of professional women and the concept of habitus of Pierre Bourdieu. He argues that the habitus is a socialized subjectivity that recreates itself in women and forces them to conceptions of themselves and of the work to be performed in their professional and private life.

Key words: *Habitus, professional women, love, attitudes, feelings.*
